PRICES EFFECTIVE: MAY 1 - AUGUST 31, 2010

PASSION FOR WOODWORKING

2010 WORKSHOP SAVINGS EVENT

FEED YOUR PASSION WITH EXCLUSIVE DEALS ON OVER 100 WOODWORKING TOOLS!

FOR MORE INFORMATION VISIT JETTOOLS.COM
JET UNDERSTANDS WHY YOU BUILD.

Building is more than your hobby or nine to five, it’s a part of you, your lifestyle and it is your passion. With the right tools in your woodworking shop, you can tackle any project. Whether it’s a fine piece of furniture made from mahogany or a simple DIY project around your home, JET has the tools you need to get the job done.

TABLE OF CONTENTS

BENCH™ MITER SAWS 3
TABLE SAWS 4-6
PLANERS 6-9
JOINTERS 9
SHAPERS 10
BANDSAWS 11-12
SANDERS 13-15

LATHES 16-17
DUST COLLECTION / AIR FILTRATION 17-18
WET SHARPENER 19
MORTISERS 19
DRILL PRESSES 20-21
WORKHOLDING 21-23
HEAVY-DUTY B3NCH™ 10” & 12” COMPOUND MITER SAW

PORTABLE
- Multiple rubber-grip carrying handles allow for convenient portability
- Lightweight die-cast aluminum design for easy transport
- Versatile base can mount to a stand or workbench

POWERFUL
- Heavy-Duty 15 Amp motor with brake for various cutting applications
- Die-cast aluminum table for long-lasting durability
- Hold-down clamp ensures an accurate cut by stabilizing the workpiece

PRECISE
- Innovative Green XACTA Laser™ provides high visibility for precision cutting
- Up-front controls for safety and ease of use
- Dual bevel capability allows you to angle and stop at 0°, 33.9°, and 45° left and right (Dual Bevel Sliding Models Only)

PASSION FOR WOODWORKING

WORKSHOP SAVINGS EVENT

10" PROSHOP TABLE SAWS
• EXCLUSIVE 30" or 52" ProShop fence system with T-square design
• Integrated arbor lock allows for quick, safe and easy blade changes
• Heavy-duty cast iron table with T-style miter slot provides large flat work surface and increased cross cut capacity
• Enclosed cabinet with EXCLUSIVE leg stand design for easy assembly
• 4" dust port for increased dust collection efficiency
• Rigid, left tilting cast iron trunnion

10" DELUXE XACTA® TABLE SAWS
• EXCLUSIVE 30" or 50" Commercial XACTA® Fence II with T-square design
• Quick release riving knife greatly reduces binding/kickback risk
• Push button arbor lock (patent pending) for rapid blade change
• Shrouded blade increases dust collection efficiency
• Standard 11" left and right cast iron extension wings provides the largest table surface in its class
• Poly-V drive belt system delivers efficient, quiet operation

ONLY $1999.99
Stock No. 708674PK

ONLY $799.99
Stock No. 708480K
HEAVY-DUTY B3NCH™
10” JOBSITE TABLE SAW

PORTABLE
• Easy folding stand for convenient storage, quick setup and portability on the job site
• Rubber hand grips on each end of the table allow you to conveniently carry without stand
• Unique base design allows for adequate tool storage on the job site

POWERFUL
• Heavy-Duty 15 Amp, 4.4 HP motor with soft start
• Large telescoping extension wing provides a wide 25” ripping capacity
• Unique dust shroud design enhances dust and chip removal

PRECISE
• Aluminum extruded rails ensure a square fence and sliding precision
• Rear extension provides out feed support and keeps the workpiece flat
• New riving knife system complies with UL standards and prevents kickback

Prices effective: May 1- August 31, 2010
10" XACTA TABLE SAWS
• EXCLUSIVE 50" commercial XACTA® Fence II with T-square design
• Cast iron wings for a large, flat work surface
• Powerful motor makes even the toughest cutting jobs a breeze
• Three matched V-belts deliver full power to the blade
• Rail-mounted magnetic switch is easy to reach and provides overload protection
• One-piece closed stand channels dust through a 4" port for fast, clean dust collection
• Hinged motor cover on cabinet gives quick access to the motor and belts

15" AND 20" PLANERS WITH HELICAL HEAD
• Helical cutterhead with indexable carbide inserts for a superior finish and quieter cut
• Heavy-duty cast iron and steel construction for added strength and durability
• Two-speed gear box with automatic chain tensioner lets you adjust the feed rate to meet your needs
• Large, cast iron, precision ground table for precise workpiece support
• Powerful TEFC induction motor with three V-belt transmission for smooth and consistent power

The JET® cutter head is a true helical which has a different cutting approach over straight knife and spiral cutter heads with carbide insert tooling. The unique geometry of the carbide inserts as well as 14 degree skew of the insert to the cutting surface produces a shearing type cut versus a chopping type cut as found with straight knife and spiral cutter heads.

15" AND 20" PLANERS WITH HELICAL HEAD

ONLY $1899.99
Stock No. 708712PK

10" XACTA TABLE SAWS

ONLY $2299.99
Stock No. 708543
13” PLANER/MOLDER

- Cast iron table and base provide strength and reduce vibration during use
- Four precision-ground column design feature adds stability when raising and lowering the table
- Three cutter head design produces a superior finish in either application
- Two speed gear box has feed rates set for optimum planing and molding results
- Molding cutter head accommodates over 40 standard molding cutter sets; most 2” or smaller heads can be installed without removing the planing knives to save you set-up time
- Infeed and outfeed rollers are adjustable and rubber-coated to support your workpiece without marring the wood

15” PLANER WITH QUICK CHANGE KNIVES

- Cutterhead with EXCLUSIVE Quick change knives that align themselves without any adjustment.
- Heavy-duty cast iron and steel construction for added strength and durability
- Two-speed gear box with automatic chain tensioner lets you adjust the feed rate to meet your needs
- Cast iron, precision ground table for precise workpiece support

Prices effective: May 1- August 31, 2010

13” PLANER/MOLDER

- Stock No. 708524

15” PLANER WITH QUICK CHANGE KNIVES

- Stock No. 708538
I6" AND 20" WOODWORKING PLANERS

- High-speed steel cutter knives produce faster, smoother cutting
- Heavy-duty cast iron and steel construction for added strength and durability
- Two-speed gear box with automatic chain tensioner lets you adjust the feed rate to meet your needs
- Large, cast iron, precision ground table for precise workpiece support
- Powerful 3 HP or 5 HP TEFC induction motor with three V-belt transmission for smooth and consistent power
- Positive gear drive moves table quickly and accurately (JWP-208 Only)

HEAVY-DUTY B3NCH™ 8" & 10" PLANER/JOINTER

PORTABLE

- Combination bench top jointer & planer provides a 2 in 1 machine to maximize workspace
- Compact bench top design fits conveniently in small shop environments

POWERFUL

- Heavy-Duty 13 Amp motor for various cutting applications
- Two high speed steel knives for precise, smooth cuts
- Oversized, ergonomic knobs provide ease of use and maximum control

PRECISE

- Large aluminum extruded fence makes joining stable and precise
- Sheet metal outfeed table with height adjustment supports long workpieces and helps reduce snipe
- Planing and joining tables lock to ensure precision cutting

22CS SHAPER

- Starting Pins for irregular shaping
- Forward/reverse switch for left and right hand operation
- Two reversible spindle speeds let you select the best speed and torque for different cutter diameters
- Independent left and right fences feature micro-adjustment and have zero-clearance capability
- Extra-large handwheel is conveniently located for fast, easy and accurate spindle height adjustments

**ONLY $949.99**

Stock No. 708320

---

25X SHAPER

- Two-speeds let you select the best speed and torque for different cutter diameters
- Independently adjustable left and right fences, standard with a micro adjust control for precise positioning
- Large 25” X 25-1/2” precision ground cast iron table provides a durable work area
- Poly-V-belt transfers maximum power to the spindle
- Extruded aluminum fence comes with T-Slots and 2 feather board hold-downs
- Reversible spindle speeds for diverse shaping jobs

**ONLY $1599.99**

Stock No. 708309

---

35X SHAPERS

- Four-speeds 4000, 6000, 8000, 10,000 RPM let you select the best speed and torque for different cutter diameters
- Independently adjustable left and right fences, standard with a micro adjust control for precise positioning
- Large 26-3/4” X 32-1/4” precision ground cast iron table provides a durable work area
- Poly-V-belt transfers maximum power to the spindle
- Extruded aluminum fence comes with T-Slots and 2 feather board hold-downs

**ONLY $2299.99**

Witness the first pure performance based line of bandsaws built exclusively for the serious woodworker. This NEW line of JET bandsaws delivers maximum stability and rigidity through a triangular designed frame. For more information visit jettools.com/TCS

**16” BANDSAW**
- Triangular design frame provides superior column rigidity
- 10” resaw capacity for cutting large pieces of wood, slicing veneers, cutting book matched panels
- 17” x 17” cast iron table supports your work material
- Adjustable rear support for wider footprint and more stability

**18” BANDSAWS**
- Triangular design frame provides superior column rigidity
- 12-1/4” Resaw capacity for cutting large pieces of wood, slicing veneers and cutting book matched panels
- 19” x 19” precision ground cast iron table for added stability and work support
- 4” dust port allows for direct connection of dust collection system

**20” BANDSAWS**
- Triangular design frame provides superior column rigidity
- Foot brake for rapid stops
- 2-speed poly v-belt drive
- 12-1/4” Resaw capacity for cutting large pieces of wood, slicing veneers and cutting book matched panels
- 21” x 21” precision ground cast iron table for added stability and work support
- 3-position quick tension release

**14" PRO DX BANDSAWS**

- Built-in 12" resaw capacity for cutting larger pieces of wood
- 2 Speed poly-v belt drive system
- Newly designed upper and lower cast iron frame for increased strength and rigidity
- Easy to view blade tracking window
- Blade guide post with rack and pinion adjustment
- Upper and lower ball bearing guides reduce friction for longer blade life
- Quick release blade tension for convenience

**ONLY**

$899.99

Stock No. 710116K

Fence Optional on all JWBS-14 Models

---

**HEAVY-DUTY BANDSAW**

**B3NCH™ 10" BANDSAW**

**PORTABLE**

- Compact benchtop design allows for easy transport to different shop locations
- Rigid steel stand allows bandsaw to transition from the benchtop to the floor
- Reinforced steel base can be bolted to stand or workbench

**POWERFUL**

- Heavy-Duty 1/2 HP induction motor for various cutting applications
- Poly-V drive system maximizes power transfer from motor to blade and reduces vibration
- Upper and lower ball bearing blade guides provide stability for heavy loads

**PRECISE**

- Quick release blade tension makes changing and re-tensioning the blade fast, easy and consistent
- Flexible LED light provides visibility without blocking line of sight
- Aluminum extruded fence ensures smooth sliding action and straight, precise cuts

The SandSmart control continuously monitors the load on the drum motor, and automatically regulates the speed of the conveyor motor to maintain the highest feed rate without overload. If the load on the drum motor increases, the SandSmart control will decrease the conveyor feed rate and will stop the conveyor under extreme conditions. If the load on the drum decreases, SandSmart will increase it faster than the manual setting on the speed adjustment label. Red indicator light goes on when SandSmart control has detected too great a depth of cut and/or too fast a speed rate.

### 22-44 PLUS DRUM SANDER
- Our EXCLUSIVE SandSmart™ infinitely variable-feed control produces the ultimate finish at a rate from 0 to 10 feet per minute and prevents machine overload
- Precision-machined and balanced extruded aluminum drum is self-cooling to protect the surface being sanded from heat damage
- Patented conveyor belt TRACKERS™ dramatically reduce the need for manual belt adjustments

**ONLY $1499.99**
Stock No. 649005K

**16-32 PLUS DRUM SANDER**

- Our EXCLUSIVE SandSmart™ infinitely variable-feed control produces the ultimate finish at a rate from 0 to 10 feet per minute and prevents machine overload
- Patented conveyor belt TRACKERS™ dramatically reduce the need for manual belt adjustments
- Precision-machined and balanced extruded aluminum drum is self-cooling to protect the surface being sanded from heat-damage
- Sealed and permanently lubricated drum ball bearings for longer life
- Precision-flattened reinforced steel conveyor bed and no-give power feed belt provide a constant smooth sanding action for better results
- Adjustable drum height and downward pressure feature virtually eliminates snipe

Stock No. 629004K

**10-20 PLUS BENCHTOP SANDER**

- Infinitely variable-speed control produces the ultimate finish at a rate from 0 to 12 feet per minute and prevents machine overload
- Patented conveyor belt TRACKERS™ dramatically reduce the need for manual belt adjustments
- Precision-machined and balanced extruded aluminum drum is self-cooling to protect the surface being sanded from heat-damage

Stock No. 628900

**OSCILLATING EDGE SANDER**

- Oscillating feature reduces heat build-up on sanding belt to reduce loading and burning which increases belt life
- Quick release lever and tracking control dial are conveniently located for replacing and tracking belts
- Belt platen is made from precision-ground steel plate for strength and durability

**12" DISC SANDER**

- Built-in dust impeller connects to canister filter to provide virtually dust-free sanding
- Canister filter efficiently filters particles down to 2 microns
- Built-in dust collection means no need to set-up a separate collection system
- Heavy-duty steel sanding disc for even sanding
- Disc brake quickly slows disc for operator’s protection
- Tilting table has positive stops at 45° and 90° for sanding flat pieces or mitered angles

**COMBINATION 6" X 48" BELT / 9" & 12" DISC SANDER**

- Large cast iron table has preset stops at 90° and 45° to let you use the belt sander vertically, horizontally or anywhere in between
- EXCLUSIVE dual thumbscrew belt tracking adjustment locks to keep belt on track during use
- Graphite covered steel platen runs cooler increasing machine and belt life

**OSCILLATING VERTICAL SANDERS**

- Oscillating action reduces friction heat to protect wood and prolong sleeve life
- Main spindle support runs on precision ball bearings and is oscillated by a heavy-duty worm and gear mechanism for consistent performance
- Worm and gear mechanism runs in an oil bath to prolong its life and durability
- Table tilts to 45° to accommodate bevel sanding projects
- Spindles have threaded ends for quick, easy changes
- Built-in storage racks keep spindles and table inserts handy
- Sturdy one-piece steel stand provides support and stability

MINI LATHE WITH INDEXING
- Available in six speeds (500-3975 rpm) or continuous variable speed (500-3900 rpm)
- Heavy-duty cast-iron lathe bed adds stability while limiting vibration during operation
- Indexing mechanism allows for fast, efficient, fluting and veining operations

14" X 42" LATHE
- Spindle has positive locking indexing in 10 degree increments for fast, efficient fluting and veining operations
- Heavy-duty cast-iron lathe bed adds stability while limiting vibration during operation
- Hollow tailstock allows you to perform long hole boring for lamps and other vessels
- Indexing mechanism which allows for fast, efficient, fluting and veining operations

16" X 42" LATHE
- Electronic inverter lets you operate the machine at any speed from 50 to 3,200 RPM
- Heavy-duty cast-iron lathe bed adds stability while limiting vibration during operation
- Indexing mechanism which allows for fast, efficient, fluting and veining operations

PLEASE CONTACT YOUR LOCAL DEALER FOR GREAT SALE PRICES ON DUST COLLECTION ACCESSORIES

DC-1100 AND DC-1200 DUST COLLECTORS

- Industrial-quality construction effectively handles collection of wood chips and sawdust
- Quick-install collection bag makes emptying and re-attaching a snap
- Single-stage design for economical and quiet operation
- Includes four casters for maneuverability and total portability
- High air velocity (CFM) design stands up to any competitive specifications

Optional “RF” Remote Control Available

Prices effective: May 1- August 31, 2010
DC-650 DUST COLLECTORS
- Hook up one to three machines for optimum dust cleaning
- Quick-install collection bag makes emptying and re-attaching a snap
- Single-stage design for economical and quiet operation
- Includes four casters for maneuverability and total portability

DC-500 DUST COLLECTOR
- Quick, tool-less assembly
- Rigid, lightweight frame
- Quick install filter and collection bags
- Large wheels for mobility
- 500 CFM performance for efficient dust collection

AIR FILTRATION
- Three-Filter System with Air Diffuser disperses outgoing air into a broader pattern
- Disposable Electrostatic Outer Filter attracts more dust particles than standard filters
- Inner Pocket Filter is removable for easy cleaning

AFS-400 AIR FILTRATION SYSTEM
- Remote control has built-in timer with 1, 2 and 4 hour settings; automatically shuts system off at the end of the time setting
- Select from three speeds 260, 362, 409 CFM for the most efficient air filtration

**WET SHARPENER**

- Enclosed motor housing keeps debris and water from interior of tool
- Variable dial speed control maintains outer wheel speed regardless of sharpening stone diameter
- Torque adjustment applies consistent pressure to drive shaft
- Oversized water tray has a flared top edge to capture more water during sharpening
- Built-in storage tray provides a convenient place for sharpening accessories
- Diameter scale provides a quick reference of stone wheel diameter

**HEAVY-DUTY CAST IRON AND STEEL CONSTRUCTION PROVIDES DURABILITY AND STABILITY DURING USE**

**DEPENDABLE RACK-AND-PINION HEAD ADJUSTMENT GIVES YOU ACCURATE DRILLING CONTROL**

**LONG, MULTI-POSITION MORTISING HANDLE LETS YOU REPOSITION THE FEED HANDLE FOR EASIER OPERATION AND OPTIMUM HANDLE POSITION**

**THREE-JAW DRILL CHUCK KEEPS A POSITIVE GRIP ON MORTISING BITS WITH UP TO 3/4” DIAMETER SHANKS**

**PASSION FOR WOODWORKING :: WORKSHOP SAVINGS EVENT**

**17” DELUXE DRILL PRESS**

- Innovative extra large 14” x 18” work table features twin T-slot grooves for homemade jigs. Edge lip designed for easy clamping of work piece.
- Replaceable MDF center insert
- Hinged metal belt and pulley cover provides easy access to the quick adjustment motor mount to allow rapid spindle speed changes
- Drill press head has integrated AC work light for better workpiece visibility
- Spindle mounted dual laser
- Spindle has high-quality ball bearing construction for long life
- Adjustable tension spindle return spring is ideal for repetitive drilling of the same depth
- Spindle mounted dual laser guide system provides a consistent drilling crosspoint on work piece
- Powered by a heavy-duty 3/4HP, 1Ph 115V TEFC motor and poly-v belt drive system
- Drill Press is designed for left or right hand operation

**ONLY $499.99**

Stock No. 354173

---

**15” FLOOR MOUNT DRILL PRESS**

- 16 speeds lets you choose the best speed for the job
- Quick release crank operated worktable height adjustment rotates + or - 45° for versatility
- Hinged metal belt and pulley cover provides easy access to the quick adjustment motor mount to allow rapid spindle speed changes
- “X” pattern mounting grooves in table allow mounting a fence when table is in reverse position

**ONLY $399.99**

Stock No. 354166
HEAVY-DUTY B3NCH™ 12” VARIABLE SPEED DRILL PRESS

PORTABLE
• Compact benchtop design allows for easy transport to different shop locations
• 11.5” x 16.5” cast iron base fits neatly on work benches with limited space
• Stable base design allows for easy re-positioning on workbench

POWERFUL
• Heavy-Duty 1/3 HP induction motor for various drilling applications
• Mechanical variable speed drive system for easy speed changes
• Industrial 5/8” drill chuck for multiple drilling applications

PRECISE
• X-shaped XACTA Laser™ ensures drilling accuracy
• Digital read out displays spindle speed for different drilling applications
• LED work light increases visibility for intricate applications
